Alumni Profile
Kevin Conway '97 B.A.

"ASU prepared me in a number of ways that I still rely on daily. First and foremost, it taught me how to work with diverse groups. It taught me about the importance of not just communication but of actually connecting with someone. In my line of work, I work with a diverse set of challenges and people, and I realized that ASU taught me how to work with diverse groups. I learned about the world and how to navigate it, and I learned about myself."
